The Artist.

Jan [°1977 in Lemgo, Germany] works as a painter and photographer. He concentrates on colour, structure and collocation. His focus is the fascination of aloof content and the innocent attitude towards abstract and minimal art. Simultaneously he is driven by the sobriety and interchangeability of emotions. To obtain his target complex, he works systematically and uses multidisciplinary methods for his handcraft ranging from painting, photography, graphic design to natural sciences and back.

As a result his paintings and pictures leave a mix of fleeting considerations and thoughts until perplex pareidolia and rich beauty emerges. Be part of a demonstration art without judgement. In the end it is all about stunning pictures as being loved by your soul.

Jan currently lives in Munich, Palma and his homeland Lage / Teutoburg Forest.

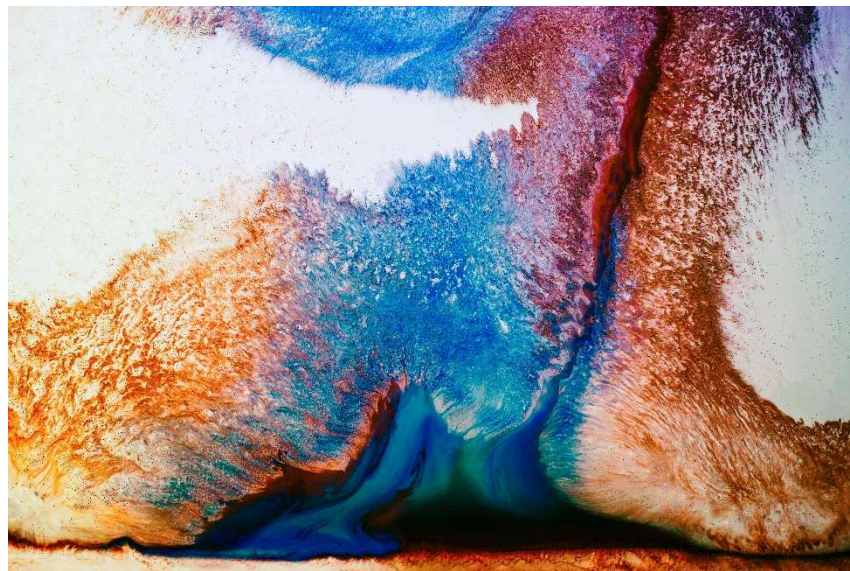

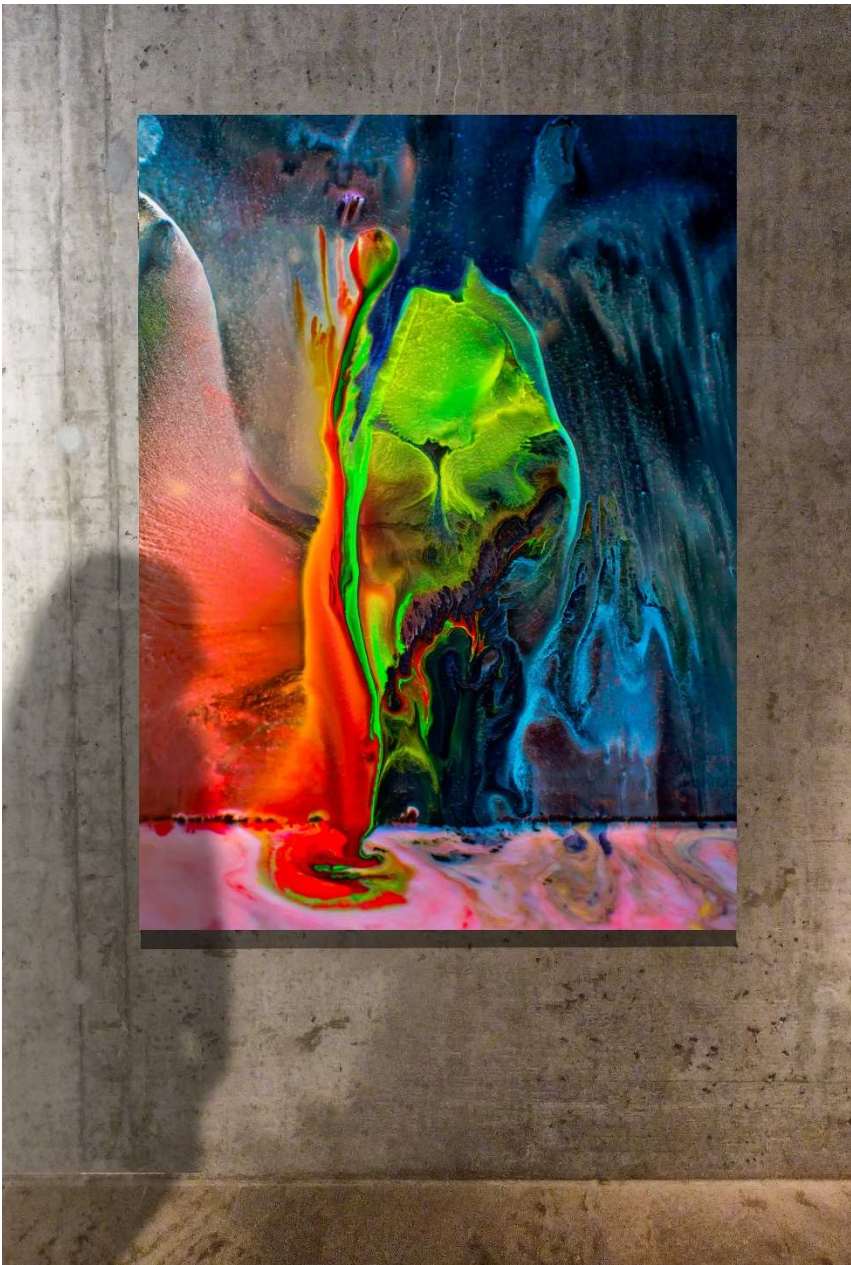

emulsion paintings.

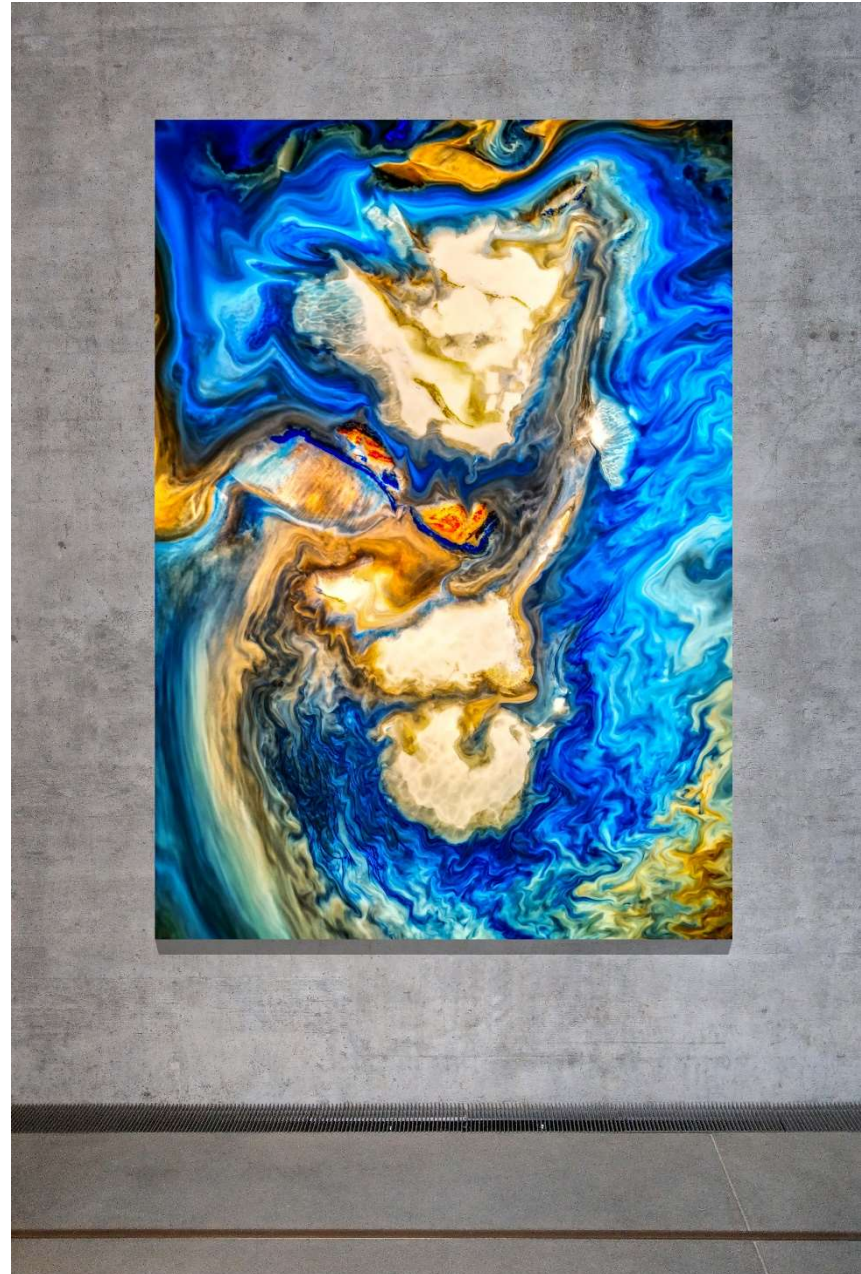

fleeting pictures of emulsion, soap and wax being blurred in chemistry showing pseudo-chaotic pareidolia.

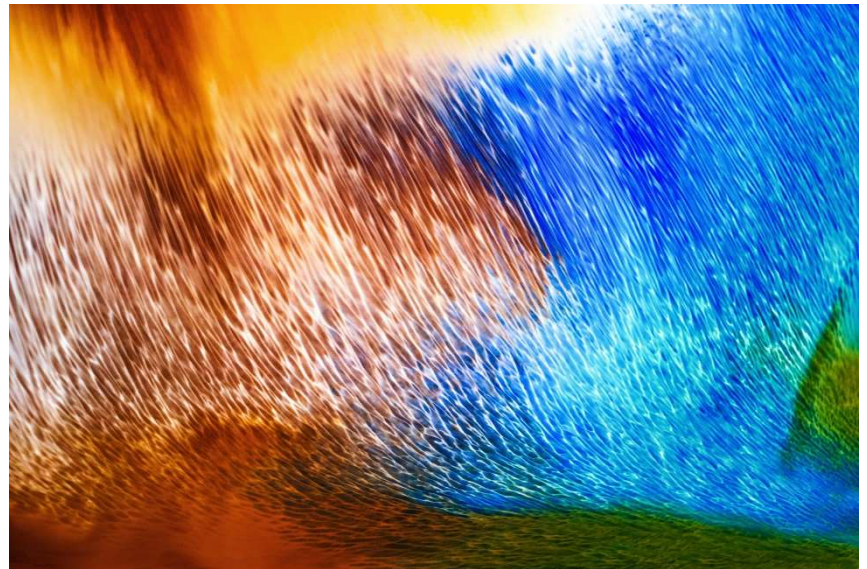

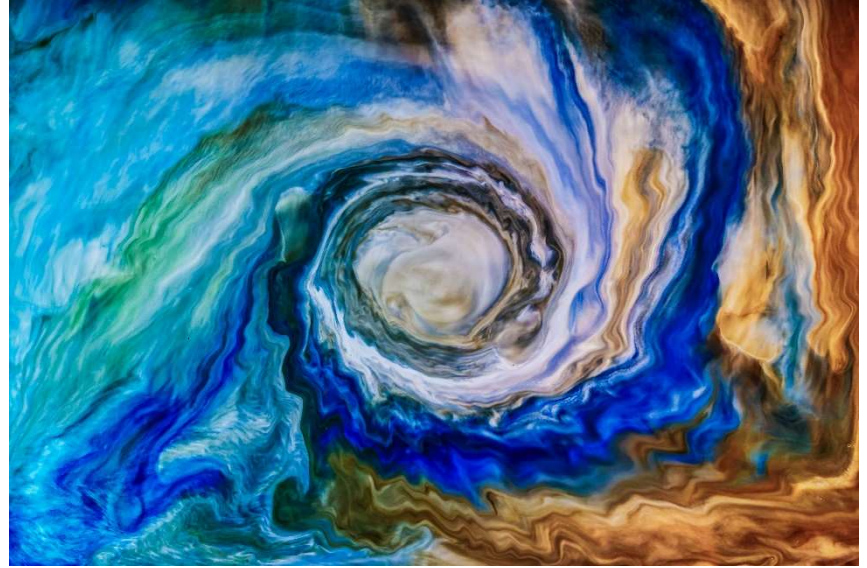

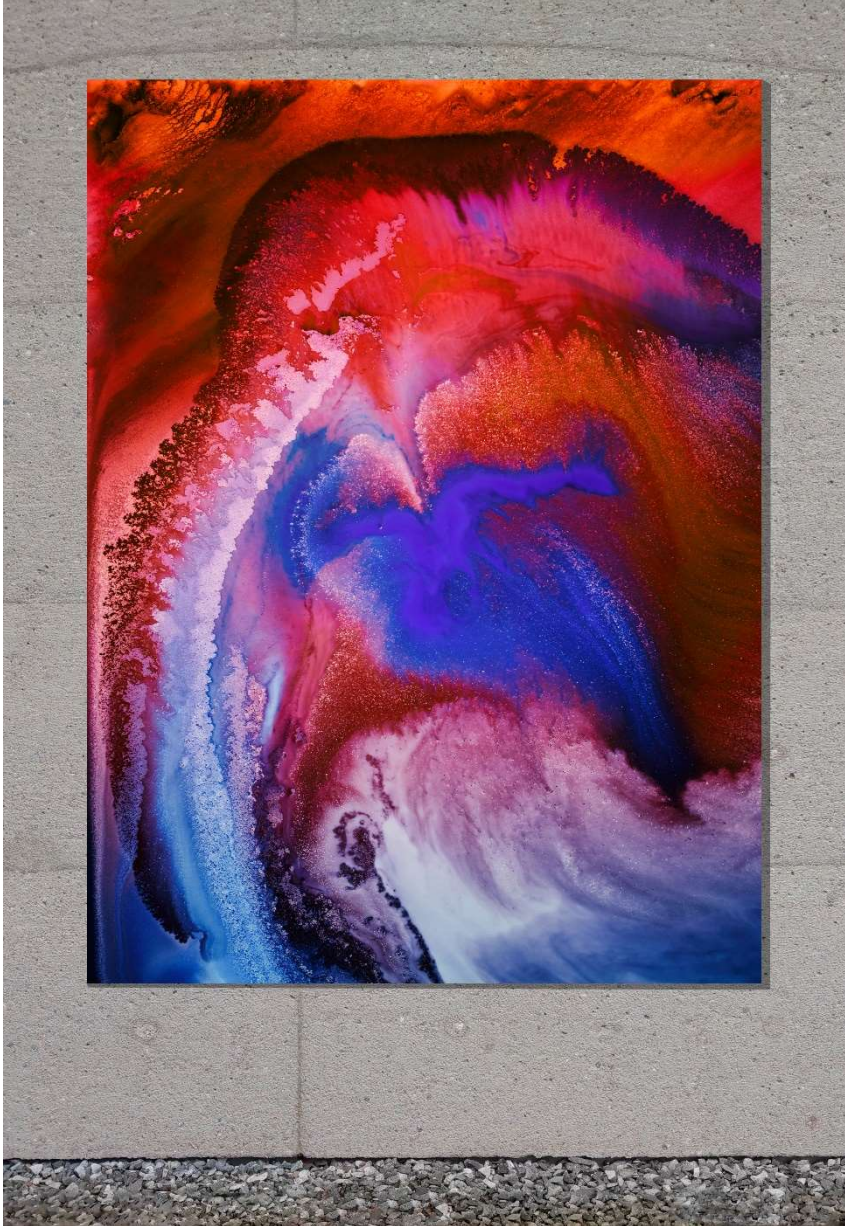

Pareidolia.

It's a psychological phenomenon in which the mind responds to a stimulus by perceiving a familiar pattern where none exists.
